
Spring config server

Gopikrishna G

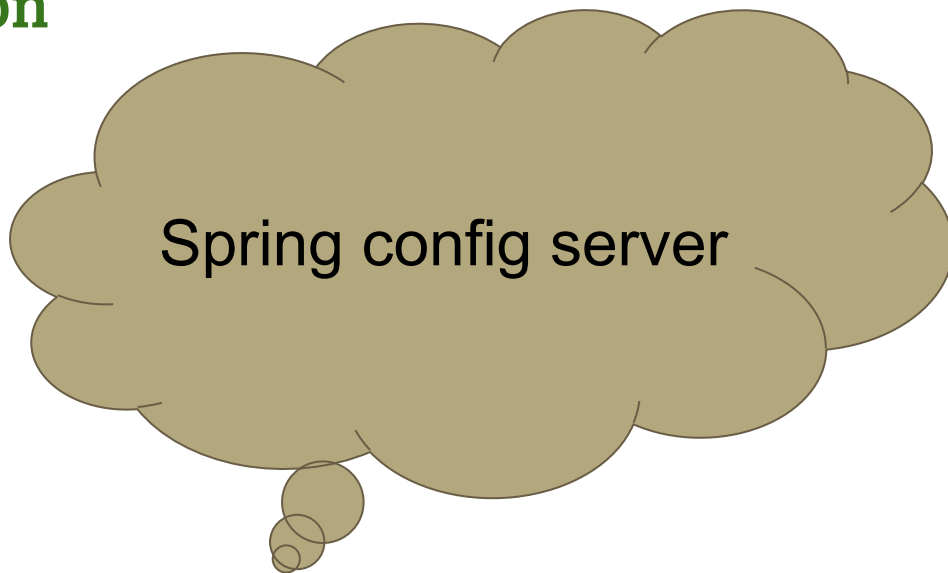

Traditional approach problem:

In monolithic application changing a config property is very costly operation

- Any changes, It leads to deployment
- Maintenance is difficult
- Environment specific changes are difficult

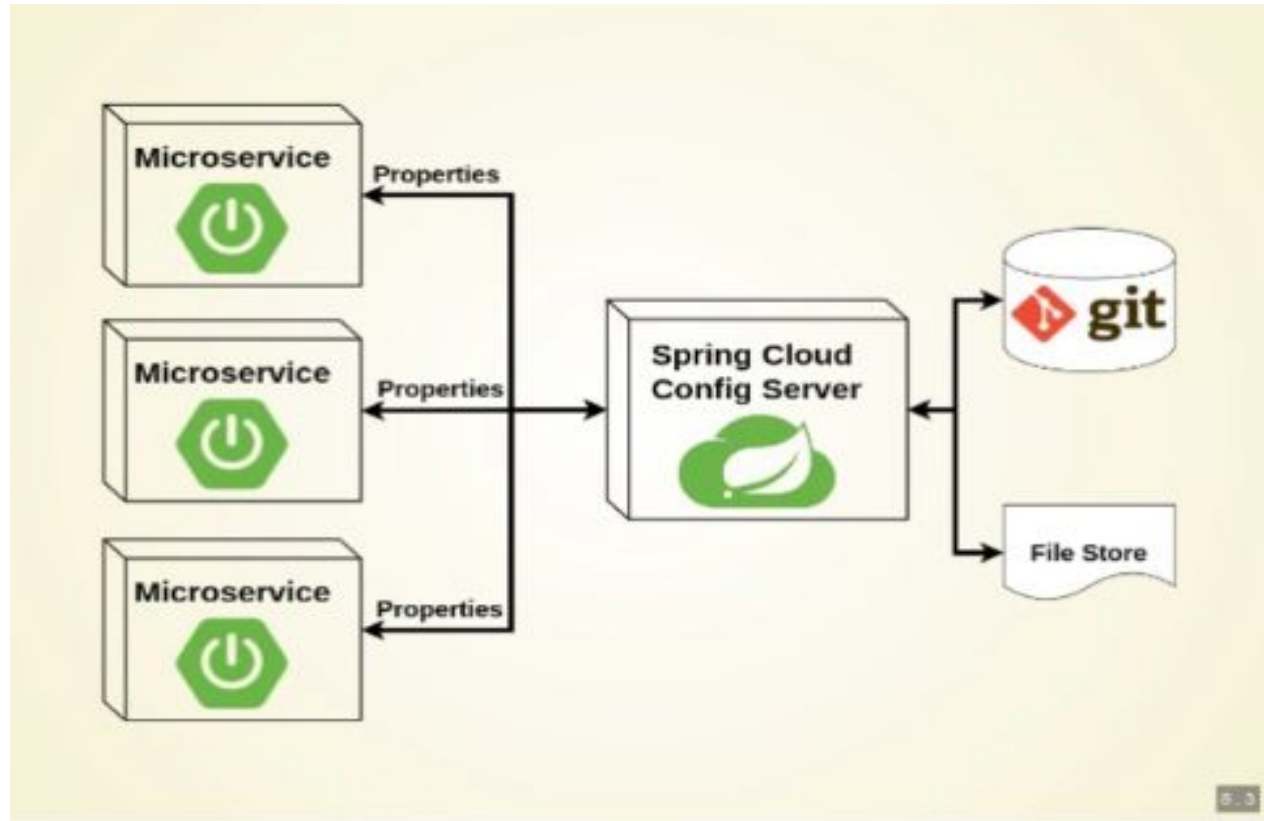

Solution

Spring Cloud Config provides server and client-side support for externalized configuration in a distributed system

Config server

Taxi Management Application

**PASSENGER
MANAGEMENT**

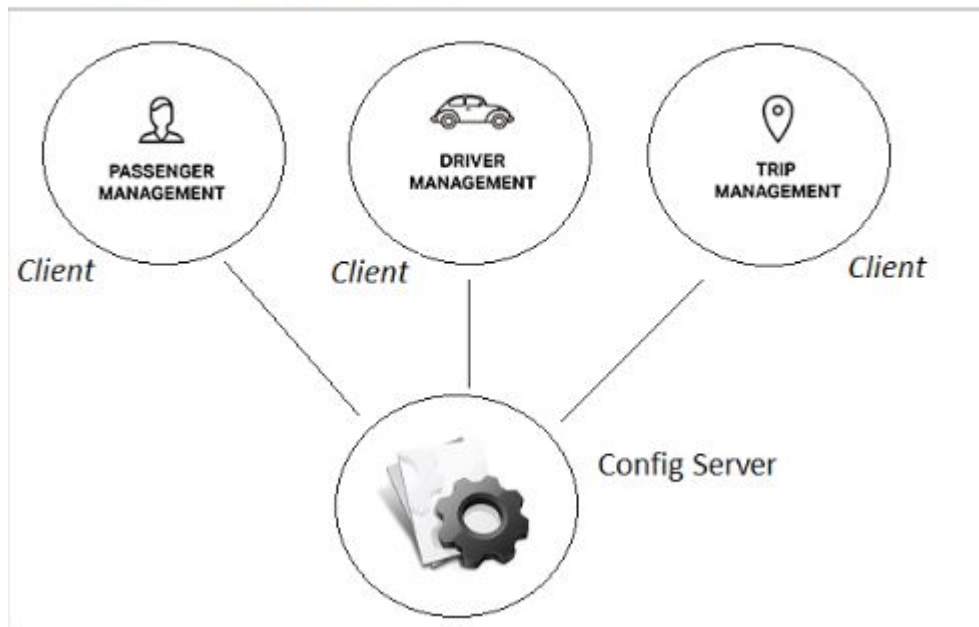

**DRIVER
MANAGEMENT**

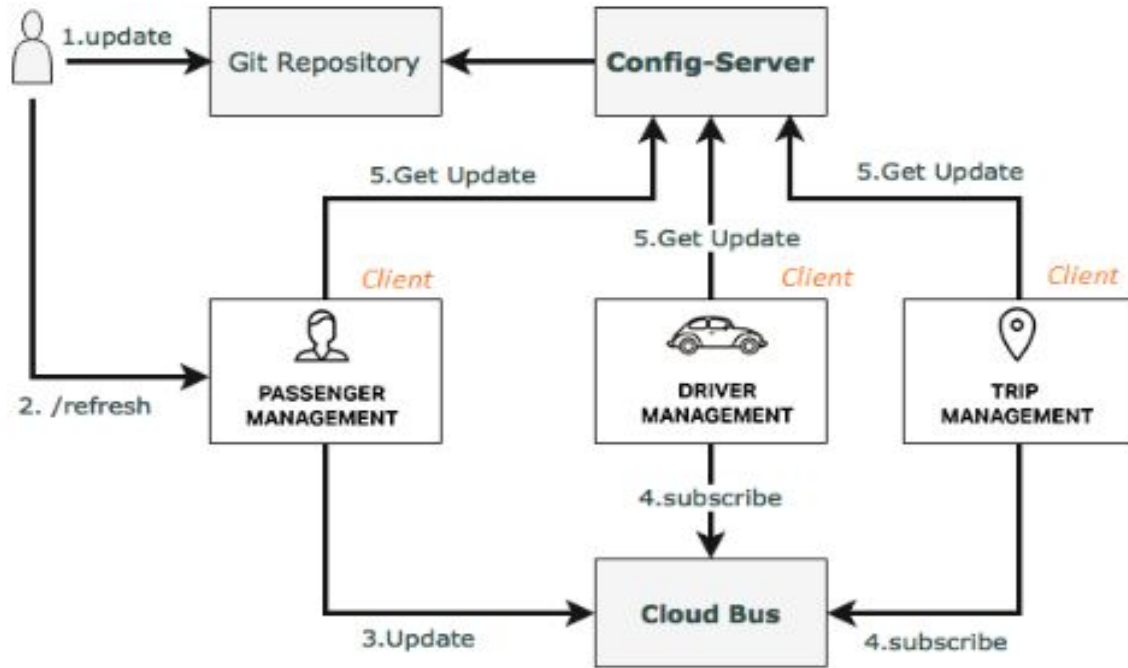

**TRIP
MANAGEMENT**

Taxi Management Application

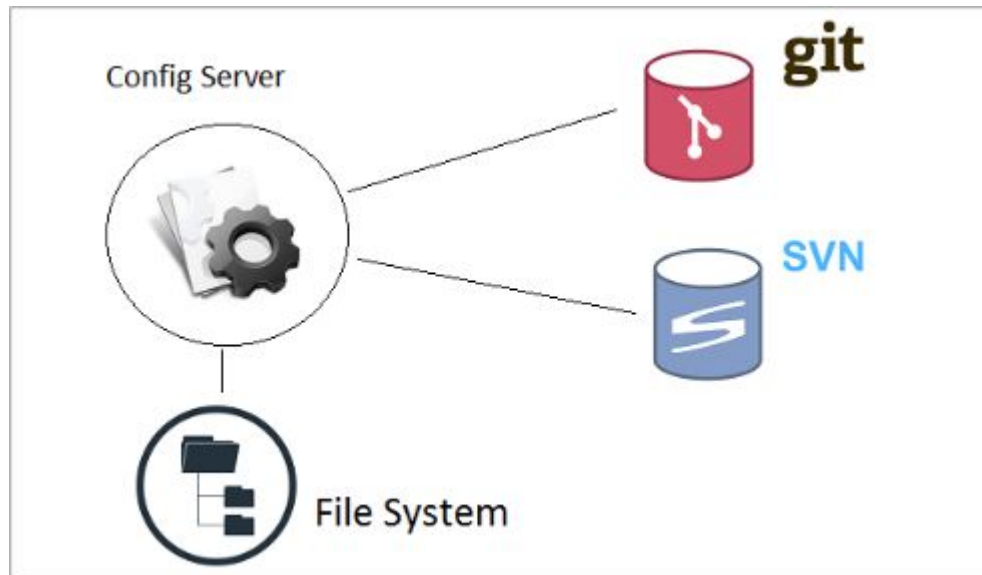

Spring cloud bus

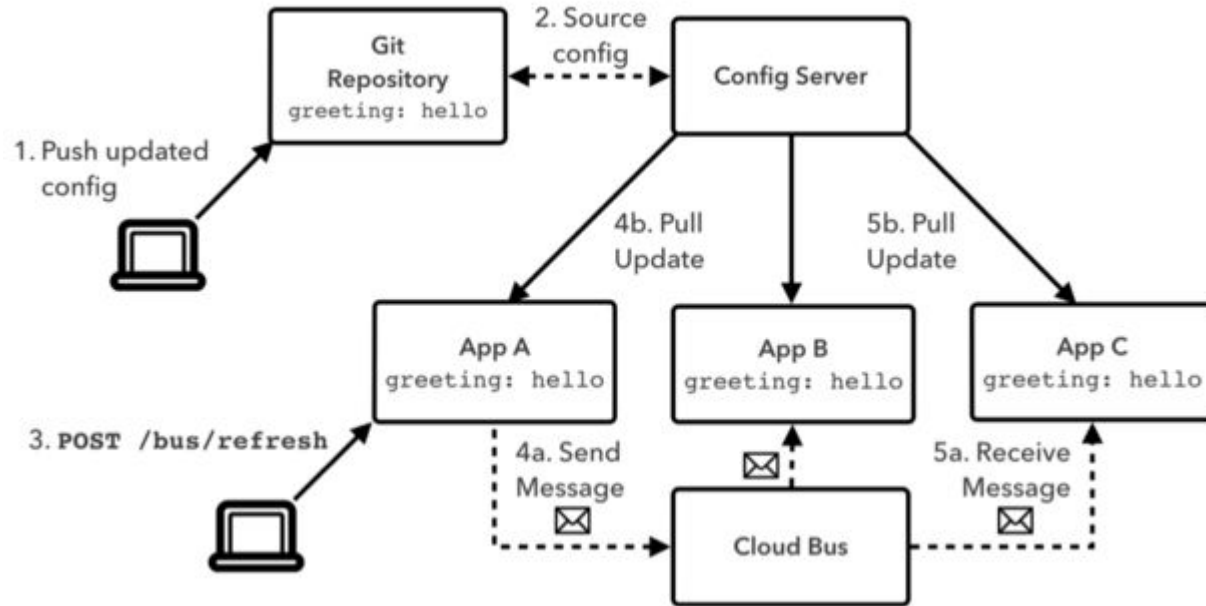

Lets see how it works..

How does Config Server store data?

Spring config server

Thank you ...
